

Public Works Fee Schedule

Note: The published hourly rate for staff time is being adjusted annually. The fees increase is based on 80% of the Seattle-Tacoma-Bellevue CPI-U All Urban Consumers as published in August. The 2024 percentage increase will be 4.32% (80% of the published 5.4%). The new normal hourly rate for 2024 will be \$78 (\$75 x 1.0432 = \$78.24, rounded to the nearest dollar). The new "non-compliance" hourly rate will be \$104 (\$100 x 1.0432 = \$104.32, rounded to the nearest dollar). See the updated fee comparison below.

Effective January 2, 2024.
